

# Change the World through STEM

Science. Technology. Engineering. Mathematics

Giving Initiative and Relevance to Learning Science

**NASA wants YOU to become the next generation of scientists, engineers, teachers and innovators!**

Women@NASA has created a virtual mentoring project that offers a one-of-a-kind experience to middle school girls across the country. Jump start your future, and explore the possibilities of a career in science, technology, engineering and math (STEM).

**Find your next opportunity:  
Visit us online!**

## How It Works

You will be mentored by a Woman@NASA through Skype or Google Chat. That's right-real engineers, accountants, businesswomen, scientists, and astronauts! By completing online lessons, you will learn how you can help **Change the World through STEM**. Your adventure includes but is not limited to:

- Online lesson activities
- Question & Answer Sessions
- Personal mentorship from a woman in a STEM field

## Applicants must be:

- US Citizens
- Grades 5-8 or home school equivalent
- Have access to the internet and a video chat program
- Willing to commit to the **5 week program**

**Learn about your adventure!**
